SUMMARY

Junior full-stack developer and IT specialist with hands-on experience building Laravel, React, Vue, Angular, and Flutter applications; integrating REST APIs and Microsoft 365 services; and supporting databases, hardware, software, and networks. Experienced in delivering school portals, enrollment systems, corporate websites, and employee management tools.

EXPERIENCE

IT Staff / Full-Stack Laravel Developer Al Munawwara Islamic School (AMIS), Davao City	May 2026 - Present
- Developed and maintained the Online Enrollment System using Laravel, PHP, JavaScript, MySQL/MariaDB, HTML, CSS, and Bootstrap. - Built and enhanced the Student Portal, Teacher Portal, Learning Management System (LMS), and Admin Dashboard. - Integrated Microsoft 365 authentication and Microsoft Graph API services. - Designed databases, implemented features, fixed bugs, and optimized application performance. - Provided technical support and system maintenance for school operations.	
Web Developer / IT Support Sir Prince Global Manpower Services Inc., Pasay City	January 2026 - April 2026
- Developed and maintained the corporate website using React, Vue, HTML, CSS, JavaScript, and Node.js. - Created responsive interfaces and improved website usability, functionality, and performance. - Provided technical support for hardware, software, and network-related concerns.	
Web Developer / IT Support First Personnel Services Inc., Pasay City	January 2026 - April 2026
- Developed employee management CRUD systems and maintained internal web applications. - Designed database-driven features for employee records and coordinated with staff to implement system improvements. - Troubleshoot application errors and resolved hardware and software issues.	
Web Developer / IT Support HRSelect Inc., Pasay City	January 2026 - April 2026
- Developed and maintained the corporate website and internal employee database systems. - Implemented new features, improved workflows, and performed system testing, debugging, and performance optimization. - Handled day-to-day IT support, including computer setup and network troubleshooting.	

ADDITIONAL EXPERIENCE

Freelance Web & Mobile Developer goCode	September 2025 - November 2025
- Assisted in developing a Flutter-based quiz application integrated with Firebase. - Implemented user authentication, scoring, leaderboards, and question management features. - Supported frontend and backend development, database integration, testing, and debugging.	
IT Intern (On-the-Job Training) Davao del Norte Provincial Capitol, Tagum, Davao del Norte	July 2023 - August 2023
- Developed a CRUD-based Staff Information System using Angular, TypeScript, Bootstrap, and RESTful APIs. - Integrated frontend components with backend APIs and assisted in API testing, debugging, and feature implementation. - Performed computer maintenance, software installation, system setup, and technical support.	

SELECTED PROJECTS

AMIS Online Enrollment & School Portals

Laravel, PHP, JavaScript, MySQL/MariaDB, Bootstrap, Microsoft Graph API

Developed multi-role enrollment, student, teacher, LMS, and administration workflows with Microsoft 365 authentication, database-driven records, and responsive interfaces.

AMIS Digital ID Verification Portal

Laravel, PHP, JavaScript, MySQL/MariaDB, Bootstrap

Built a responsive portal for student information verification and Digital ID access, including record lookup, data validation, and mobile-friendly ID presentation.

Staff Information System

Angular, TypeScript, Bootstrap, RESTful APIs

Created a CRUD-based employee information system and integrated Angular components with backend APIs for staff record management.

Flutter Quiz Application

Flutter, Dart, Firebase

Implemented authentication, question management, scoring, and leaderboard features while supporting Firebase integration, testing, and debugging.

EDUCATION

Bachelor of Science in Computer Science

August 2024

UM Tagum College, Tagum, Davao del Norte

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Vue.js, Angular, Bootstrap, Tailwind CSS, GSAP

Backend: PHP, Laravel, Node.js, Express.js, RESTful API Development, API Integration

Mobile & Databases: Flutter (Dart), React Native, MySQL, MariaDB, PostgreSQL, MongoDB, Firebase, Database Design

Integrations & AI: Microsoft 365, Microsoft Entra ID, Microsoft Graph API, OAuth, SSO, Google Authentication, SMTP, AI Integration, AI-Assisted Development, Prompt Engineering, OpenAI API, AI Chatbot Development

Tools & Deployment: Git, GitHub, cPanel, Apache, Cloudflare, XAMPP, Laragon, Linux, Windows, Figma, Canva, UI/UX Design

IT Support: Hardware and Software Troubleshooting, Basic Networking, Computer Maintenance, System Setup, OS Installation, Technical Support, Debugging, Performance Optimization, Database Backup, System Security
